OUR EXPERTISE AND KNOW-HOW IS YOUR SUCCESS!

ABAKUS SERVE provides a comprehensive range of services around your waste. Our experienced specialists provide expert advice in all questions of waste management.

Our activities are diverse, ranging from analysis of the current situation up to the conception and realization of complete, tailored management systems. Our approach is clearly structured:

- 1** To get an overview of the current circumstances, the first step is a comprehensive data collection conducted at your location.
- 2** The subsequent analysis by ABAKUS SERVE is carried out promptly and is completed by a presentation of the results obtained.
- 3** The next steps will be determined based on the analysis results along with you. The necessary measures to implement plans are developed.
- 4** The final step is the realization of the service.

YOUR SUCCESS!
